

# Year 4 - Safer Internet Day

Today, in year 4, we have been learning how to be safe on the internet.

We have learned about the use of emojis and their meanings, explored how pictures we see on the internet can't always be believed and explored how we may react to seeing different messages online.

Below are a selection images showing some drama work which links to our reactions to a number of scenarios that could occur online such as embarrassing pictures being shared to a friend trying to cheer us up with a silly picture.

We have also produced a booklet showing our top tips for safety on the internet.
