

Special Education Needs Information Report 2024-25

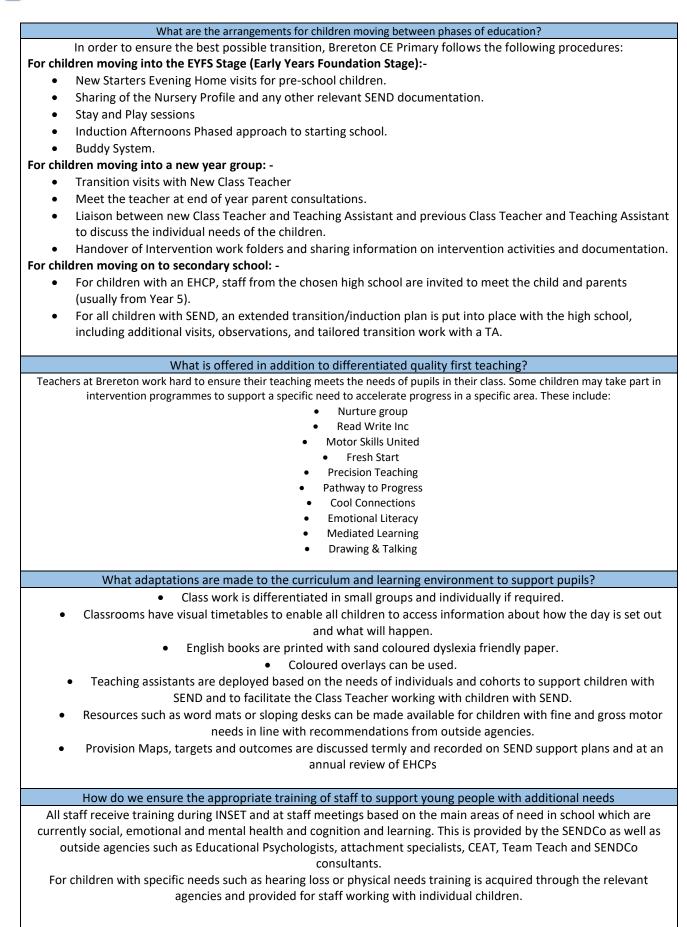

As part of the Children and Families Bill, 2014, Local Authorities and schools are required to publish and keep under review information about services they expect to be available for the children and young people with Special Educational Needs (SEN) aged 0-25. This is the 'Local Offer'. The intention of the Local Offer is to improve choice and transparency for families. It is also an important resource for parents in understanding the range of services and provision in the local area. The school SEN information report utilizes the LA Local Offer to meet the needs of SEND pupils as determined by school policy, and the provision that the school is able to meet.

pupils as determined by school policy, and the provision that the school is able to meet.
What Kind of Special Educational Needs and Disabilities do we provide for?
As an inclusive mainstream primary school, Brereton CE provides for a varying range of needs. These include the four broad 'areas of need' outlined in the Special Educational Needs and Disability Code of Practice: 0 – 25 years: - Communication and Interaction; Cognition and Learning; Social, Emotional and Mental Health Difficulties; Sensory and Physical Needs
How do we identify Special Educational Needs and Disabilities?
We identify a child's needs in a variety of ways including but not limited to:
A home visit on entry to EYFS
 Liaison with previous Schools/Nursery
Class based assessments made by the Class Teacher in relation to learning and behaviour
Pupil Progress meetings with Class Teacher, Headteacher and SENDCo from which we track and identify
children who are performing significantly below age expected levels.
 Constant monitoring and review of progress made during interventions for children who are not making expected progress.
Concerns raised by parents.
 Liaison with SENDCo and external agencies.
How do we work in partnership with parents and carers of children with Special Educational Needs and Disabilities?
We actively encourage parents and carers to be involved in their child's education through: -
 Parents consultations with the Class Teacher.
Annual School Report.
 Parent/Carers Workshops and information evenings.
 Sharing relevant information about how parents and carers can support their child at home.
 'Open Door 'policy with Class Teacher, SENDCo and Headteacher
 SEND Support Plans with termly update meetings.
Educational Health Care Plan (EHCP) reviewed annually for those children identified as having a Special
Educational Need and Disability.
Attend meetings with outside agencies.
How do we ensure children with SEND are involved in their learning and progress?
We actively encourage children to be involved in their education through: -
 Gaining pupil voice on SEND support plans
 Making children aware of their own individual targets.
 Regular written/verbal feedback identifying the next steps for learning.
 Providing children with the time to respond to feedback.
How do we assess and review the progress of children with SEND?
In addition to the schools own termly assessments and statuary assessments, the progress of identified children is assessed by:
 Evaluation of SEND support plans termly.
 Entry and exit data from interventions.
 Data scrutinised termly and progress tracked.
Pupil progress meeting.
Observations.
• Specific assessments carried out by a consultant SENDCo or outside agencies such as Speech and Language

Therapists, Occupation Therapists

How do we report on the effectiveness of provision for children with SEND

We provide a half-termly report to Governors, complete evaluation of school Provision Maps and their correlation to the needs of the current cohort and update EHCPs annually.

How do we enable children with SEND to engage with the activities of the school?

All children are treated equally and therefore children of all needs access educational visits, extra- curricular activities and residential trips at their level. To ensure that children with SEND can engage in such activities an individual risk assessment may be carried out. Where necessary an additional adult may be required so that necessary adaptions can be made.

Exceptions may be made where activities contradict with the advice of professionals working with a child or where the activity is not in the best interest of the child. This will be in consultation with the parents and an alternative may be offered.

What support is available for improving social and emotional development?

We recognise that the social and emotional development of a child is crucial and we support that in a number of ways. Children are taught self-esteem and resilience through 'My Happy Mind' PSHE scheme; each class has an emotions display and work is done to support children's emotional literacy and understanding; each half term we follow a theme linked to our school's values and teaching, discussion and work is linked to the value; one member of staff is responsible for progressing the emotionally healthy schools project and leads staff training, initiatives and attends consultations.

Individuals with specific SEMH needs may take part in cool connections, be referred to Visyon or have a specific SEND support plan listing the most appropriate strategies.

How do we involve outside agencies?

We will continue to maintain our effective working links with:-

- Educational Psychologists
- CEIAS formally Parent Partnership Service
- Integrated Service for Looked After Children
 - Speech and Language Therapy Service
 - Cheshire East Autism Team (CEAT)
 - Early Years Support
 - CAHMS
 - Downs Syndrome Cheshire
 - Swans (Counselling service)
 - Pets as Therapy

The SENDCo attends half termly consultation meetings with the educational psychologists and autism team. Referrals can be made to other services. School acts on advice and recommendations from the above as needed.

What are the procedures for making a complaint about the provision for SEND?

All concerns should first be discussed with the class teacher who will inform other members of staff where necessary, If this does not resolve the concern then a meeting should be requested with the SENDCo or Headteacher. If you are still not satisfied with the response or if the complaint is about the Headteacher then you should follow the complaints policy procedure.
